Weatherby Locums President Appointed to NALTO Board

FORT LAUDERDALE, FLORIDA (April 1, 2004)—Weatherby Locums announced today that Frank Phillips, president, was recently appointed to the Board of Directors of the National Association of Locum Tenens Organizations (NALTO).

Formed in 2001, NALTO primarily serves to educate the health care industry on the benefits of locum tenens staffing and to establish a set of service standards among locum tenens companies. The association also provides a system for sharing resources among member organizations, offers a formal dispute resolution process through an arbitration committee, and aids all members in cultivating market growth. Weatherby Locums is one of NALTO's founding members.

"NALTO helps to write the future for the locum tenens industry and I want to be part of it. For me, personally, it's an honor to be voted a leader by your peers, who are also your competitors," said Phillips. Additionally, Phillips was named chairman of NALTO's Ethics Committee.

Board members serve two-year terms and are elected from a pool of candidates nominated by other NALTO members. "Frank was elected primarily because of his experience in the locum tenens industry," said Jamey Morgan, president of the NALTO Board. "There is also a high comfort level because we [Board members] know he will look out for all the members and represent everyone equally."

More About Weatherby Locums...

Weatherby Locums is an individually operated company of CHG, which also owns CompHealth, Destination Healthcare Staffing, and RN Network. As one of the fastest-growing locum tenens firms in the country, Weatherby Locums specializes in placing physicians in temporary positions nationwide. Established in 1995, the company places physicians, in more than 25 specialties, in the country's top physician groups and health care networks. For more information, visit www.weatherbylocums.com.
