FORTUNE Names CHG to “100 Best Companies to Work For” List

Healthcare staffing firm comes in at number 26 on the list

SALT LAKE CITY, Utah (January 21, 2010) – FORTUNE announced Thursday that it ranked CHG Healthcare Services as the 26th best company to work for in America, according to FORTUNE magazine’s 13th annual “100 Best Companies to Work For” survey.

“CHG is honored to receive recognition as a great place to work. We’ve committed to staying true to our first core value of Putting People First despite the challenges related to the economy, and it’s gratifying to know that our employees feel passionate about working here,” said Michael Weinholtz, president and CEO at CHG Healthcare Services.

CHG recently launched CHG Pulse, an interactive website that provides insight into the company’s unique culture through the use of photos, video, and employee spotlights. The company also uses its presence on social networking sites like [Facebook](#), [Twitter](#) and YouTube to keep its employees informed and engaged.

CHG employs approximately 1,100 employees in California, Connecticut, Florida, Michigan, North Carolina, Oklahoma and its Salt Lake City, Utah-based headquarters. CHG is the only company from Utah to receive the listing from FORTUNE.

To pick the 100 Best Companies, FORTUNE partners with the Great Place to Work Institute to conduct the most extensive employee survey in corporate America. Two-thirds of a company’s score is based on the results of the Institute’s Trust Index survey, which is sent to a random sample of employees from each company. The survey asks questions related to their attitudes about the management’s credibility, job satisfaction, and camaraderie. The other third of the scoring is based on the company’s responses to the Institute’s Culture Audit, which includes detailed questions about pay and benefit programs and a series of open-ended questions about hiring, communication, and diversity.

FORTUNE Deputy Managing Editor Hank Gilman says, “The most important considerations for this year’s list were hiring and the ways in which companies are helping their employees weather the recession. All 100 companies on our list are currently hiring, many of them aggressively, leading to more than 96,000 open job positions expected in the next year.”

The full list and related stories appear in the February 8 issue of FORTUNE, available on newsstands on Monday, January 25, and now at fortune.com/bestcompanies.
