

## **CompHealth Revamps Web Site for Easier Physician and Medical Job Search**

Updated features make new site more user-friendly and dynamic

CompHealth, a Salt Lake City, Utah-based locum tenens staffing and permanent placement agency for medical professionals, launched its newly redesigned web site to make job searches for health care jobs easier. CompHealth is the leader in providing clinical and non-clinical healthcare jobs for physicians, advanced practitioners, therapists, radiologic professionals, laboratory professionals, pharmacists and healthcare managers.

New features and web site functionality help health care providers find job opportunities and connect with a CompHealth recruiter faster and easier than ever. Providers have quicker access to specialty-specific job openings and a new job cart feature that allows them to select, preview and inquire about multiple job listings at once.

“We wanted to focus on creating an intuitive website. The design and architecture rely heavily on research and feedback from the end-user, with the main objective of improving the overall experience,” said John Genna, marketing vice president for CHG, CompHealth’s parent company. “We adopted a highly collaborative, performance-driven approach, so we are excited to monitor the user experience and make adjustments along the way to enhance it.”

After searching, health care providers can set up customized job alerts by specialty, geographic location, or preference for permanent placement or locum tenens jobs. They can also request a call, which enables them to select the most convenient time for a CompHealth recruiter to contact them.

### ***More about CompHealth...***
